

# Topic 5 Annual Meeting

## Tuesday 5 March 2024

### **Breakout Sessions - KUBUS & Campus (14:15 - 16:15)**

| time [id] title                                                                                        | presenter                                                                |
|--------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| 14:15 [16] Digital Twin frameworks for multifunctional landscapes                                      | TAUBERT, Franziska<br>KÜHN, Ingolf                                       |
| 14:15 [22] On the interaction of monitoring and modelling                                              | DIETRICH, Peter<br>KÖNIG, Sara                                           |
| 14:15 [17] Exploring and managing multifunctional landscapes: A multiscale perspective                 | GRAEBER, Daniel                                                          |
| 14:15 [23] Interdisciplinary collaboration in human-Earth systems modeling                             | KLASSERT, Christian<br>RECHID, Diana<br>TANG, Hui<br>HEILEMANN, Jasmin   |
| 14:15 [6] Extreme events                                                                               | ZSCHEISCHLER, Jakob<br>BOUWER, Laurens<br>VOROGUSHYN, Sergiy             |
| 14:15 [15] TERENO: Observing and Analysing Earth's Environmental Indicators                            | BLUME, Theresa<br>SACHS, Torsten<br>ZACHARIAS, Steffen<br>SCHÄFER, David |
| 14:15 [18] Remote sensing of terrestrial and aquatic ecosystems                                        | ROESSNER, Sigrid<br>HEROLD, Martin<br>PENG, Jian                         |
| 14:15 [28] Fluvial landscapes – from natural systems to cultural landscapes and their future potential | SIEBERT, Christian<br>SACHSE, Dirk                                       |

# Wednesday 6 March 2024

## Breakout Sessions - KUBUS Leipzig & Campus (10:45 - 12:45)

| time  | [id] title                                                                                          | presenter                                                                                    |
|-------|-----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|
| 10:45 | [7] Solutions for climate resilient cities                                                          | RECHID, Diana<br>SCHRÖTER-SCHLAAK,<br>Christoph<br>KUHLICKE, Christian<br>HANSJÜRGENS, Bernd |
| 10:45 | [12] CARF Citizen Science-and-Participation@Helmholtz                                               | BONN, Aletta                                                                                 |
| 10:45 | [21] Helmholtz E&E DataHub: products and services for time series, biodiversity and geospatial data | SCHNICKE, Thomas<br>HAMMITZSCH, Martin                                                       |
| 10:45 | [24] CANCELLED - MOSES                                                                              | WEBER, Ute                                                                                   |
| 10:45 | [25] Carbon Dioxid Removal                                                                          | THRÄN, Daniela<br>MARKUS, Till<br>GAWEL, Erik                                                |
| 10:45 | [29] Governing the transformation towards sustainable agricultural landscapes                       | RODE, Julian<br>MÜLLER, Birgit                                                               |
| 10:45 | [30] LandTrans Simulator - A modular system of terrestrial models                                   | ATTINGER, Sabine                                                                             |
| 10:45 | [38] Forests in a changing earth                                                                    | KRUSE, Stefan<br>MUSOLFF, Andreas<br>KNUTZEN, Florian                                        |
