

HiDA HELMHOLTZ
Information & Data Science Academy

Data Scientists for the Future of Research

Viktoria Schwarze

Interdisciplinary Training of Doctoral Researchers

The Helmholtz Information & Data Science Schools

Germany's largest postgraduate training network in the field of Information & Data Science

Over 330 doctoral researchers at 13 Helmholtz Centers and 17 German universities

Funding for doctoral positions

Double supervision:

- Supervisor from the scientific domain
- Supervisor from computer science or mathematics

HIDA Offers a Wide Range of Courses and Training Events

We offer diverse training formats to Helmholtz employees, students, and researchers

- Data science courses & workshops
- Lectures
- Hackathons
- Summer School
- Conference

HIDA promotes the further development of courses within Helmholtz

Visibility

HIDA Course Catalog

We present courses and data science events from the entire Helmholtz Association on our platform

Finance

HIDA Course Funding

We support data science events of the Helmholtz Centers through financial support and by opening them up within the Helmholtz Association

Knowledge

Sustainable education of trainers

We offer programs to educate information & data science trainers for the Helmholtz Association

New Horizons

Exchange programs and networks

We promote the exchange ...

within the Helmholtz Association

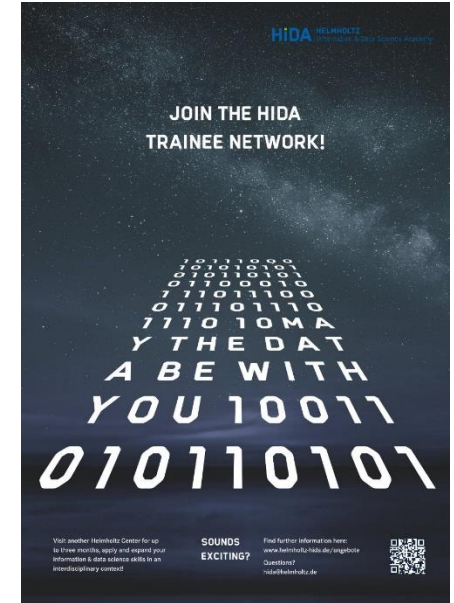

- **HIDA Trainee Network**

with international partners

- **International exchange programs**

for international visiting researchers

- **Visiting Researcher Grant**

The Path to Helmholtz

HIDA connects the centers with their future experts

We help data scientists find interesting jobs at Helmholtz

- HIDA Job Board
- Helmholtz Career Day for Data Science and IT
- HIDA Job Alert Friday

We use our outreach to disseminate relevant job offers in a targeted manner

We provide insights into research and the working environment of the Helmholtz Centers
