

CASUS Science Day 2024

Thursday 19 December 2024

Talks Session 3 (14:30 - 15:30)

time	[id] title	presenter
14:30	[58] SpatioCoexistence: Towards a Spatial Theory for Species-Rich Communities	WIEGAND, Thorsten
14:40	[59] AI 4 Quantum - Machine Learning for Quantum Simulation and Computing	DOBRAUTZ, Werner
14:50	[60] Two Stories of Stability and Structure in Ecological Communities	HAAS, Pierre
15:00	[61] Dendritic is different: How river geometry affects fish biodiveristy	CALABRESE, Justin
15:10	[62] Nano- and Flexomagnetism of Magnetoelectric Cr2O3 Antiferromagnets	MAKAROV, Denys
15:20	[63] The Fast Newton Transform: Interpolation in downward closed spaces reaching optimal geometric approximation rates for Bos-Levenberg-Trefethen functions	HECHT, Michael
