Mathematics of the Weather 2024

Tuesday 8 October 2024

Applied & Numerical Mathematics (10:15 - 11:50)

time	[id] title	presenter
10:15	[7] Rotating convection and flows with horizontal kinetic energy backscatter	RADEMACHER, Jens
10:45	[47] On a Discrete Hierarchy for Atmosphere-Ocean Dynamics	KORN, Peter
11:15	[37] Admissibility preserving Flux Reconstruction / Discontinuous Galerkin methods for compressible flows	BABBAR, Arpit
11:30	[19] Adaptive mesh refinement in Earth-system modeling: first steps	GEIHE, Benedict HARTUNG, Kerstin
