

# Second workshop of the CARF remote sensing

## Wednesday 16 October 2024

### Posters: Short poster presentations (14:50 - 15:00)

[id]	title	presenter	board
[23]	AI-vergreens - a new multi-level labelled multi-temporal Sentinel-2 image patch-based training dataset optimized for Northern Circumboreal forest	HEIM, Birgit	
[16]	AI4GNSS-R: Implementing and Interpreting AI for GNSS-R Applications in Ocean and Atmosphere	XIAO, Tianqi	
[41]	Atmospheric Remote Sensing Infrastructure: a bridge between research and teaching	BRUNO, Olimpia	
[21]	GFZ StrucNet - Monitoring forest structure with close-range sensing technologies	BREDE, Benjamin	
[40]	GNSS Remote Sensing: Overview and Recent Results from GFZ	WICKERT, Jens	
[17]	Sporadic E layers in the polar region and their response to the geomagnetic storm in May 2024	Dr ARRAS, Christina	
[19]	The German FLEX Project Office	BENDIG, Juliane	
[11]	Artificial Intelligence for 3D Building Modeling	Dr BITTNER, Ksenia
