

Creating GatherTown Rooms from Scratch

Wednesday 8 December 2021 15:30 (1h 30m)

GatherTown is a video-conferencing platform with many possible interactions among participants and between participants and content elements.

This, combined with intuitive interactions and spontaneous formation of breakout rooms makes the platform a good choice for online workshops or conferences.

In this Workshop we will explore design considerations, tools and workflows to create custom workshop rooms from scratch, as well as the interaction possibilities offered by *GatherTown*

Preferred time slot length

90 minutes

Intended Audience

Educators, Workshop Organizers

Contribution Language

English
