

# Supervised Practice III

*Tuesday 5 November 2024 14:30 (2h 30m)*

You can apply your new knowledge to more complex problems designed to lead you toward creating somewhat larger and more complex programs. The instructors are available to help you in case you have questions or want feedback.

**Presenter:** ERXLEBEN, Fredo (Helmholtz-Zentrum Dresden-Rossendorf)

**Session Classification:** Introduction to Python
