

3rd IP Klausur TapNature

Monday 18 November 2024

Presentations of Platform Project MYSUN - Microbial Photosynthesis for Sustainable Biosyntheses (09:45 - 10:30)

time	[id] title	presenter
09:45	[17] MYSUN: microbial photosynthesis for sustainable biosyntheses	LAI, Bin KLÄHN, Stephan
09:55	[18] Physical removal of photosynthetically produced oxgen in 3D cryo-printed microfluidic chips	GOLZE, Corinna
10:10	[19] Prospective life cycle assessment of early-stage bio-based technologies – Case study of decentralized hydrogen production	BEZAMA, Alberto
