

DAPHNE4NFDI Software practice workshop @ EuXFEL

Monday 24 February 2025 - Tuesday 25 February 2025

Building XHO

Scientific Programme

Introductory software practice session

This session comprises talks that introduce the topics (continuous integration, container building, application deployment) that are followed on throughout the workshop, and serve as a basis for the practical exercises.

Containerisation specifics session

Use cases of containerisation practice, with a focus on its role in web-application deployment, are presented.
