

Defining a limited set of impactful data analysis tools to implement

Wednesday 23 April 2025 16:05 (10 minutes)

Resulting from our internal survey about the user needs, we were unable to derive a clear answer on which tools shall be implemented to tackle the main pain points of the community. With this virtual session, we would like to run a follow up survey in which we intend to identify a set of 4-5 most valuable and impactful tools according to our consortium.

Primary authors: DORNTE, Charlyn (Universitätsklinikum Essen - Institut für Zellbiologie (Tumorforschung)); JAITEH, Mariama (Helmholtz-Centre for Infection Research (HZI))

Session Classification: Plenary
