

Intensification of collaboration between the individual TAs?

Wednesday 23 April 2025 11:30 (15 minutes)

Are there any needs for stronger collaboration between the individual TAs?

For example, does TA3 require information from TA1/TA2 to develop training sessions or update our website?

Or should TA1/TA2 work more closely with TA4 to ensure that the transpiled and validated metadata is better integrated into the database?
