Towards responsible research evaluation with conference metadata and PIDs (EN)

Wednesday 7 May 2025 14:30 (15 minutes)

Conference organization is a lot of work, and it is oftentimes not rewarded. To uncover this invisible work, there needs to be a foundational layer of trustworthy metadata. In this presentation concepts of responsible research evaluation will be discussed and a use case will be described. One key aspect will be the role of research information systems in evaluating this important part of the academic life.

Presenter: HAUSCHKE, Christian (TIB)

Session Classification: Anwendungen /Application - Part III
