

# FE-FRT Workshop 2025

## Report of Contributions

Contribution ID: 1

Type: **Talk**

## **Deisgn of an FE-FRT for microphonics compensation at 1.3GHz**

This talk will detail the design of an FE-FRT for microphonics compensation for a multicell 1.3GHz superconducting cavity such as the one envisioned for the bERLinPro main linac.

**Other topic:**

### **Topic**

Microphonics Compensation

**Primary author:** SHIPMAN, Nicholas (Helmholtz-Zentrum Berlin)

**Presenter:** SHIPMAN, Nicholas (Helmholtz-Zentrum Berlin)

**Session Classification:** Microphonics Compensation
