

Rhizo4Bio-Status Seminar

12 – 13 May 2025

Leipziger KUBUS, Permoserstraße 15, 04318 Leipzig

registration: <https://events.hifis.net/event/2279/> (Deadline: April 3rd, 2025)

Dear members of the Rhizo4Bio- & BonaRes funding initiatives,

we cordially invite you to the [Rhizo4Bio Status Seminar](#) which will be held [12 – 13 May 2025](#) in the [KUBUS in Leipzig](#). As in previous Status Seminars, the meeting will comprise highlight presentations and a poster session. In addition, the new root coring platform (based at UFZ) will be demonstrated. Finally, in a workshop “Sorting out root traits from WinRhizo for modelling”, a common standard for the evaluation of root data with WinRhizo as input for modelling activities will be discussed. Participation is mandatory for the Rhizo4Bio projects, colleagues from BonaRes projects are cordially invited to participate with posters related to rhizosphere processes. For interested colleagues from BonaRes and project administration (PtJ) who will not be able to attend in person, we plan to offer hybrid participation for the highlight presentations via zoom.

The Status Seminar Organization Team

Instructions for Authors

Highlight presentations

Each RhizoWheat project (i.e. Bread and Beer, RhizoWheat, ...) is asked to give a **20 + 10 minutes** (for discussions) **highlight presentation on new developments since our last Status Seminar**. The content of the presentation and the speakers (one or more persons) are determined by the projects themselves. The important issue is that the exciting results from the past year are shown and can be discussed with the audience.

Posters

In addition to the Highlight presentations, posters presenting additional or more detailed results from Rhizo4Bio and BonaRes research are welcome. Poster format is DIN A0 portrait.

Registration

Please register for the Status Seminar via <https://events.hifis.net/event/2279/>
Deadline for registration (in person and via zoom) is April 3rd, 2025.
