

Introduction to Python I

Monday 3 November 2025 10:00 (1h 30m)

You will have the first contact with your Python programming tool, and together with your instructors, you will write your very first programs. This covers learning about variables and data types, and importing code from other files or libraries.

Presenter: ERXLEBEN, Fredo (Helmholtz-Zentrum Dresden-Rossendorf)

Session Classification: Introduction to Python
