#### **Enrolment**

Simplified view of Technical Platform

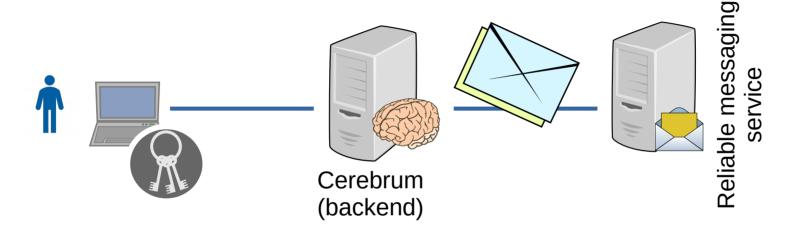

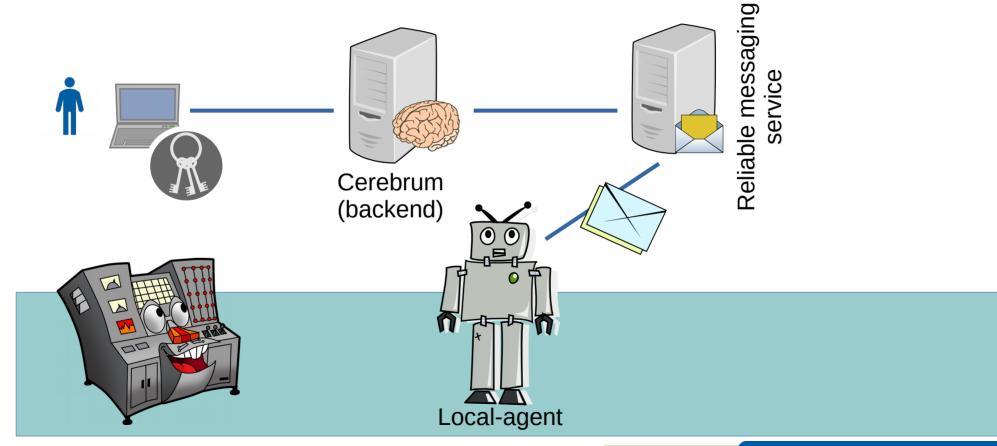

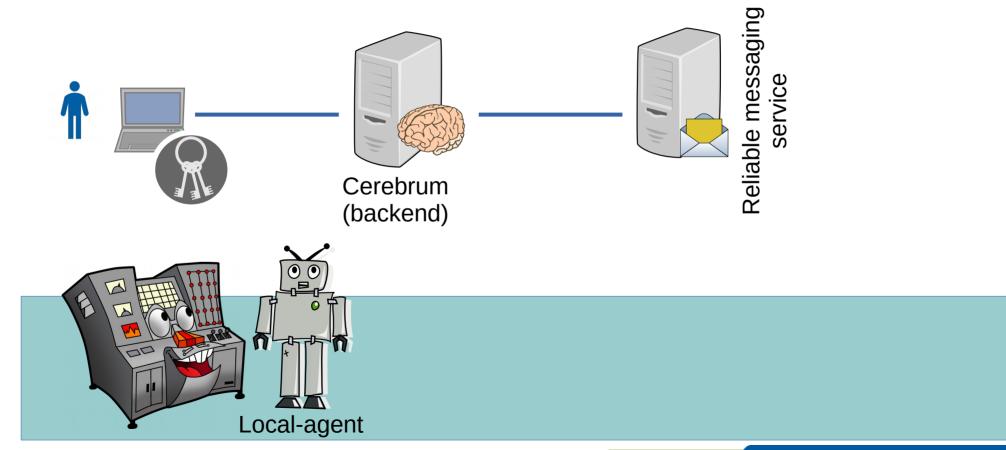

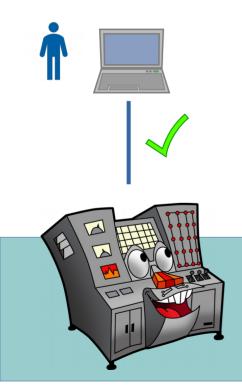

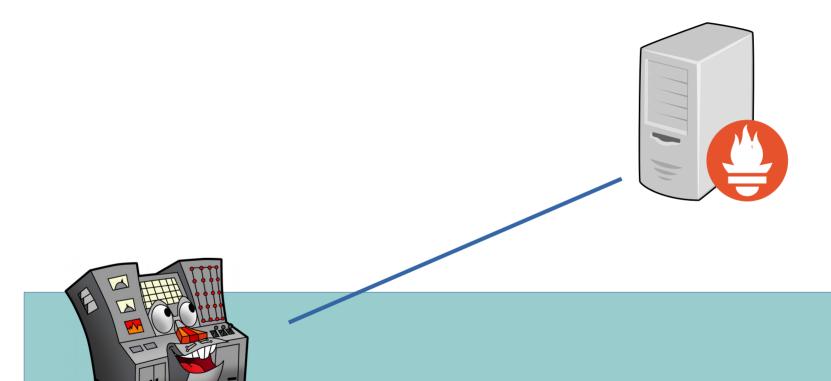

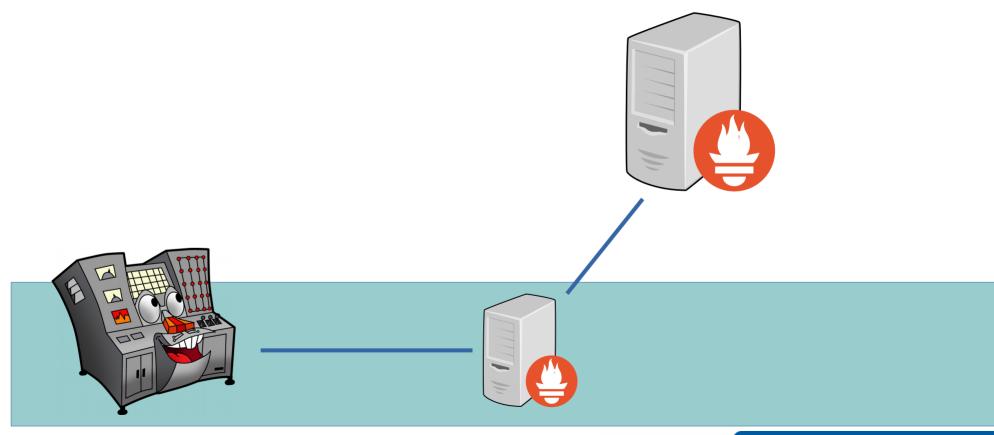

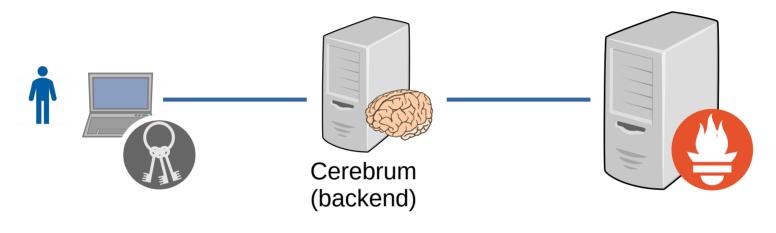

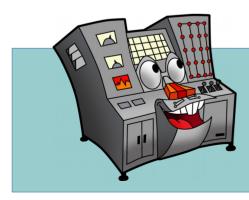

# Summary

# Summary

- We are on-track to have a beta verson ("MVP") live this year.
  - Basic metadata
  - Authentication
- Initial design work already started on next steps:
  - Enrolment (local-agent)
  - Monitoring (prometheus)

# Why are we here?

Function	Benefit for the scientist	Benefit for the Helmholtz centres
Service catalogue	Find the resources they need quickly.	Maximise use of their resources.
User enrolment	Get access to the resources as quickly as possible.	Lower cost of providing service.
Service monitoring and usage accounting	Better overview, resulting in fewer surprises.	Reduced support effort.
