

## Workshop 5: RDM Basics: Writing DMPs and Applying Metadata Standards

*Wednesday 1 October 2025 15:30 (1 hour)*

This workshop covers fundamental research data management (RDM) practices, including drafting a Data Management Plan (DMP) and working with common metadata standards. Through brief interactive examples, participants will learn how to structure a DMP and tag datasets using existing schemas.

**Presenter:** THÖLKEN, Clemens (Philipps-Universität Marburg)

**Session Classification:** From Lab Bench to Data Bench: Practical Research Data Management for Scientists
