

NuFFER

A NuPECC Forum For Early-career Researchers

Eliana Masha, NuFFER Chair

September 26, 2025

About NuFFER

Idea based on the ECFA Early-Career Researcher (ECR) Panel, suggested by yHEP:

Create a forum for early career researchers within NuPECC

First initiative started within the NuPECC Long Range Plan

<https://www.nupecc.org/>

NuFFER goals

- Support early-career researchers in nuclear physics across Europe
- Represent their needs and interests in the NuPECC decision making
- Inform them about opportunities for development

Mission

NuFFER operates guided by three principles – to:

1. Support early-career researchers in nuclear physics across Europe
2. Represent their needs and interests in the NuPECC decision making
3. Inform them about opportunities for development

Plan

NuFFER's action plan includes:

- Online and in-person events to bring together ECRs across Europe and build a community.
- Workshops dedicated to the personal and professional development of ECRs, including their career opportunities within and outside academia.
- Questionnaires designed to gather the opinions of ECRs on topics of importance in the European nuclear physics community
