

_WTT: Workshop "transfun –where ideas become reality"

Wednesday 12 October 2022 14:00 (1h 30m)

Get to know our UFZ internal funding programme transfun. With an annual volume of ca. 350,000 EUR, the internal funding programme transfun intends to support transfer projects at the UFZ. All kinds of projects along the transfer value chain with the aim of identifying and developing transferable solutions (e.g. open source software, sensors, databases, bioreactors, production processes, etc.) for a target market can be funded. Are you curious and would like to know more about the funding modules transtest, transproof, transmarket, transbig? Do you want to know how you can apply for funding? Then join us during the Science Days!
