Practical steps towards reproducible research

Thursday 9 June 2022 10:30 (2 hours)

In this workshop we will look at four key steps to get started with reproducible research:

(1) Get organized
(2) Use Open Source Software
(3) Use Version Control
(4) Make your work available online.

Although reproducible research practices can first seem intimidating, we will find a way to get started that works for you.

Presenter: SEIBOLD, Heidi
