Two Years of Helmholtz AI Consulting for Matter

Tuesday 28 June 2022 09:00 (1 hour)

I'll provide a high level overview on the projects we did in the last 2-3 years. In-depth knowledge of machine learning is not required, but certainly helpful.

The talk will last about 20 minutes. The remainder of the time is aimed at an open Q&A session, where scientists can also express concerns, wishes or feedback.

This event will also be available via zoom: <https://hz-b-de.zoom.us/j/83564080128?pwd=Fz9ckAy8ronSZzBpQ0Zoi2o5vrRcF>

Presenter: STARKE, Sebastian (HZDR)
