

BrainComp2022 - Computational Challenges of Connectivity

Monday 19 September 2022

Connectivity: The network perspective (10:15 - 11:15)

time	[id] title	presenter
10:15	[6] Generalizability of connectome-based predictive models	Dr GENON, Sarah
10:45	[7] Influence of local neuronal and circuit features on the functional mapping of the cortical network	Prof. SANCHEZ-VIVES, Mavi

Connectivity: The network perspective (11:45 - 12:15)

time	[id] title	presenter
11:45	[3] The Thermodynamics of Mind	Prof. DECO, Gustavo

Connectivity: The network perspective (17:30 - 18:30)

time	[id] title	presenter
17:30	[28] MEDUSA: an HPC-based simulation environment to create decoders of white matter microstructure	Dr USZYNSKI, Ivy
