

BrainComp2022 - Computational Challenges of Connectivity

Wednesday 21 September 2022

Young Researchers Session (11:30 - 12:50)

time	[id] title	presenter
11:30	[21] Cytoarchitectonic mapping, 3D-reconstruction, and texture analysis of the human bed nucleus of the stria terminalis	BRANDSTETTER, Andrea
11:50	[22] Cytoarchitectonic mapping of the human olfactory tubercle and terminal islands	POLEKSIC, Joko
12:10	[23] Variations in the shape of the central sulcus in hominids	Dr FOUBET, Ophélie
12:30	[24] Training physical models of deep spiking neural networks	BILLAUELLE, Sebastian
