Metadata for a FAIRer World

More complete metadata...

- makes research outputs and resources easier to Find
- clarifies conditions of Access
- promotes Interoperability between systems
- communicates the context to promote Re-use and reproducibility

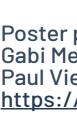

DataCite Descriptive Metadata

Use metadata to describe research outputs so they can be discovered

The content of this poster is licensed under a Creative Commons Attribution 4.0 International 4.0 license (CC BY 4.0) https://creativecommons.org/licenses/by/4.0/

The descriptive metadata helps us to easily understand what the resource is. We can set up searches and queries with keywords and controlled vocabulary to find it.

SEARCH METADATA

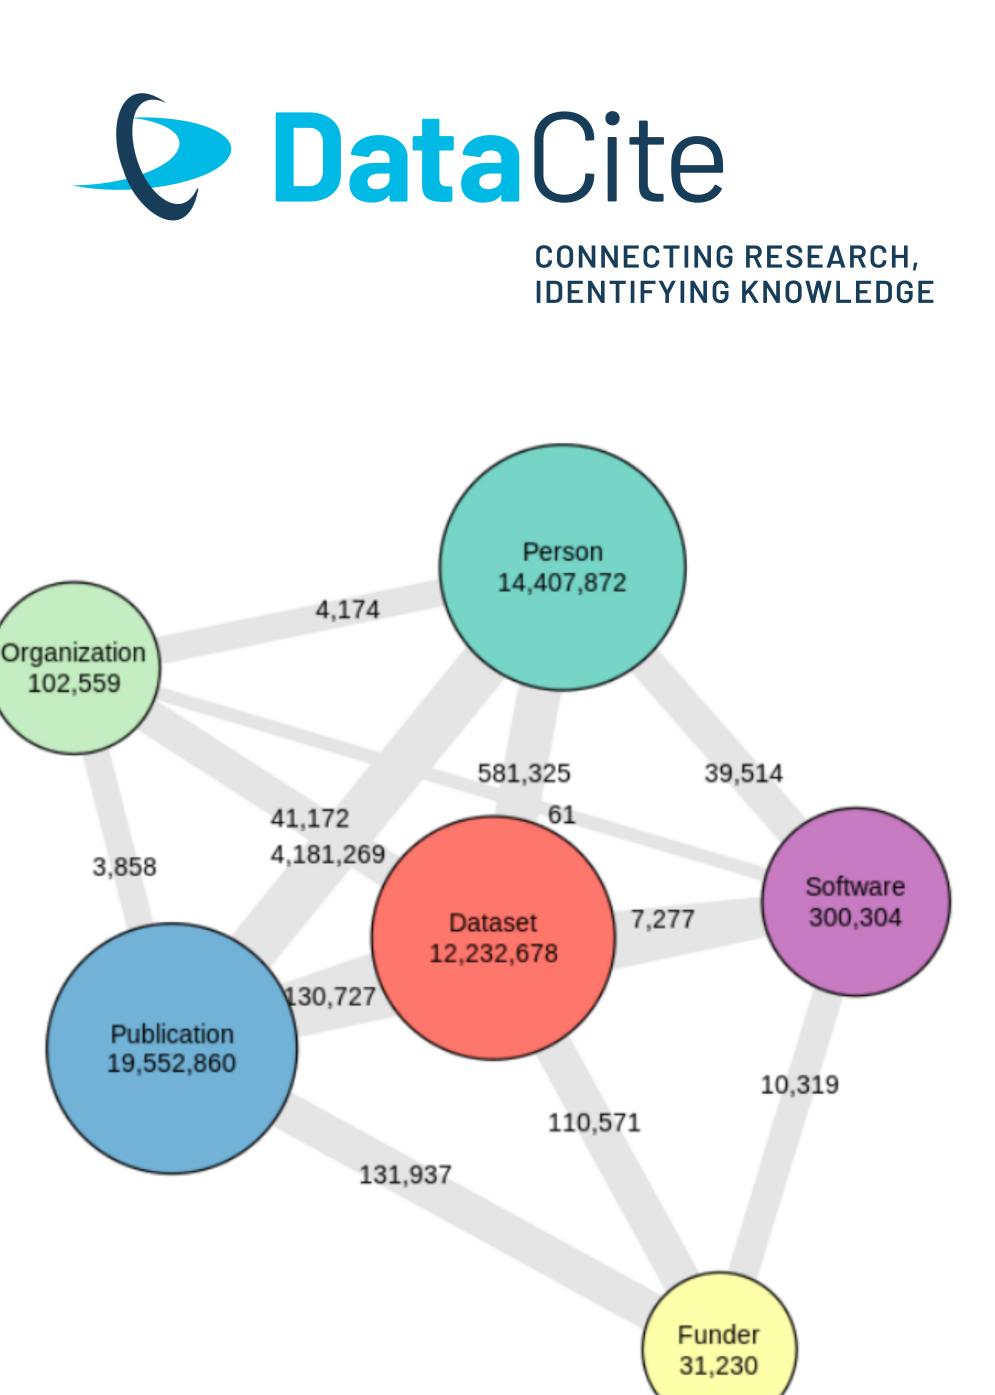

DOI metadata is exposed with a CCO license and indexed by Search Engines.

CREATE **METADATA**

Subject, Description and Rights information are included in the DataCite DOI metadata to describe

Poster presented at the HMC Conference 2022, (online) 05.-06.10.2022 Gabi Mejias, DataCite, ORCID iD: https://orcid.org/0000-0002-1598-7181 Paul Vierkant, DataCite, ORCID iD: https://orcid.org/0000-0003-4448-3844 https://doi.org/10.5281/zenodo.7120792

Persistent Identifiers

Enabling persistent connections in the PIDgraph
