

Contribution ID: 15

Type: not specified

Far-infrared near-field optical imaging and Kelvin probe force microscopy of laser-crystallized and -amorphized phase change material Ge₃Sb₂Te₆ used for active metasurfaces

Tuesday 13 September 2022 12:15 (30 minutes)

Presenter: BARNETT, Julian (RWTH Aachen)

Session Classification: Session 4: THz Nanophotonics / Nanoscopy
