15th JLESC Workshop

Wednesday 22 March 2023

Short Talks on Distributed Resources: Short Talks on Distributed Resources - Salle Ada Lovelace (14:00 - 15:30)

time	[id] title	presenter
14:00	[7] Towards an application-driven dynamic resource approach for HPC	HUBER, Dominik
14:10	[21] Study of the folding of distributed experiments containing a distributed file system	GUILLOTEAU, Quentin
14:20	[65] Dynamic resources in MPI	ISERTE AGUT, SERGIO
14:30	[33] Optimize heterogenous storage resources use on HPC systems with simulations	MONNIOT, Julien
14:40	[67] Composition of Scheduling and Control-Theory Techniques	BLEUSE, Raphael
14:50	[60] Seamless Heterogeneous Memory Management Via The EcoHMEM Methodology	ELSHAZLY, HATEM
15:00	[63] Cloud-Bursting and Autoscaling for Python-Native Scientific and AI Workflows	Mr LIU, Tingkai
15:10	Discussions
