

15th JLESC Workshop

Thursday 23 March 2023

Short Talks on Workflows, I/O and Frameworks: Short Talks on Workflows, I/O and Frameworks - LaBRI Amphi (16:00 - 17:30)

time	[id] title	presenter
16:00	[9] On Temporal I/O Behavior Characterization: Predicting I/O Phases Using Frequency Techniques	BANDET, Alexis
16:10	[52] CI in HPC: Working hard or hardly working?	KABADSHOW, Ivo
16:20	[42] Optimizing iterative applications using a data-flow programming model	ALVAREZ ROBERT, DAVID
16:30	[82] Perspectives on the Versatility of a Searchable Lineage for Scalable HPC Data Management	NICOLAE, Bogdan
16:40	[46] On the Impact of Improving Runtime Estimates in HPC	BOZENNEC, Robin
16:50	[18] Bringing Elasticity to HPC Storage and Data Services	DORIER, Matthieu
17:00	Discussions
