

## **Breakout Session 1: Bridging the terrestrial and marine domains**

*Tuesday 23 May 2023 16:30 (1h 30m)*

How can we develop existing and future observing systems to better bridge the physical boundaries, e.g. across themes such as biology and climate, to provide more coherent and useful system information?

Open session, NO Webex

**Presenters:** SUNDFJORD, Arild (NPI); JOHANSSON, Margareta (ULUND)

**Session Classification:** GA Day 1
