

Breakout session 7: EU Polar Cluster - Observation Working Group

Wednesday 24 May 2023 11:00 (1h 30m)

We aim to give you a brief overview of the Cluster and give you an outline of our plans for hosting an observation working group through the Cluster.

The EU funded programmes comprises a large number of Polar research projects which perform various observations of the environment and in the societal and human domain. An exchange about the types of observations that are being performed across the EU funded programmes would of great value for and for example allow to better coordinate observations, find data and exchange on best practices. EU Polar Cluster, via Arctic PASSION, represents a good opportunity to address these issues. It allows to use the Polar Cluster as a vehicle to map out these observations and have coherent up to date communications between projects to capture the diversity of measurements.

Open session

Webex: <https://awi.webex.com/awi-en/j.php?MTID=mf96ac0beb3c706c645d88e77456d6252>

Presenters: STRAHLENDORFF, Mikko (FMI); ELSHOUT, Pjotr (EPB); COOMBS, Sarah (UKRI-BAS)

Session Classification: GA Day 2
