

9th Data Science Symposium

Thursday 4 April 2024

Session 1: Capacity Building and AI: Christopher Kadow - Chair - Olbers-Saal (13:05 - 14:50)

time	[id] title	presenter
13:05	[46] Keynote: AI	Prof. GROSSE, Guido
13:35	[8] Embracing AI as a Tool for Science, highlights from the Helmholtz AI team for Earth & Environment	CAUS, Danu
13:50	[38] autoQC: An AI based online app for ocean data quality control	MIERUCH-SCHNUELLE, Sebastian
14:05	[22] A.I.-based characterization of seafloor habitats and megafaunal species composition: Examples using optical images from the Pacific and tropical Northeast Atlantic	MBANI, Benson
14:20	[44] AI-Application for Scientific Sensor Data collected onboard German Research Vessels	SCHLUNDT, Michael
14:35	[7] Best of both worlds: unlocking the potential of data science for biological research	VESELI, Iva
