

Supervised Practise

Tuesday 14 November 2023 13:30 (3h 30m)

In the second self-paced exercise, you can apply your new knowledge to more complex problems designed to lead you towards creating somewhat larger and more complex programs. The instructors are available to help you in case you have questions or want feedback.

Presenter: ERXLEBEN, Fredo (Helmholtz-Zentrum Dresden-Rossendorf)

Session Classification: Introduction to Python
